

S. Pharris Anesthesia Dental Sedation

Background

My name is Skylar Pharris. I have been a Certified Registered Nurse Anesthetist (CRNA) since 2013. I have worked in all clinical settings and currently work in an independent anesthesia practice at Murray-Calloway County Hospital in Murray, KY. I am a native of Madisonville, KY and worked in that hospital for 10 years prior to our move to Murray. I thoroughly enjoy providing this sedation service for Dr. Spencer and Dr. King at Pebble Creek Family Dentistry.

Goals and preoperative instructions

My goal is to safely provide you with the amount of sedation that you require to get you through your dental procedure with no pain, no anxiety, and no recollection of the procedure. I will call you the week of your procedure to do a phone interview and give you preoperative instructions. Please do not eat or drink anything within 8 hours of your scheduled procedure. If you have medications to take, you can take those the night before and the morning of your procedure with a small sip of water unless if we decide differently in the phone interview. When you arrive the day of your procedure, we will review your medical history, talk about risk and benefits of anesthesia, and decide what our goals are to keep you safe and give you a great experience. Once we get to the dental procedure room, I will start a small IV and begin giving you medicine to relieve your fears. You will be closely monitored with standard anesthesia monitors the entire case until you are discharged home. You will need a

driver to drive you home. The medicines that I use are quick acting but you will be tired for the remainder of the day. No driving for 24 hours after anesthesia. You can eat whatever you feel like you can tolerate. I will be available to answer any questions you have before or after your procedure. I look forward to meeting you and making this a great experience for you!

Payment for anesthesia services

Anesthesia is billed in units of 15 minutes. There is a \$475 charge for the first hour which will cover the IV, supplies, medicines, monitors, etc. Every 15 minutes after will be billed at \$65/15 minutes. Your time will start during the preoperative interview just before the IV is placed. Your time will end once you are discharged. The first hour at \$475 will be a non-refundable charge during our preoperative phone interview. I do accept all major credit cards (3% interest per charge), checks, cash, PayPal, and Venmo. No private insurance accepted. HSA cards can also be accepted at times. The entire remainder of payment will be due after your procedure is completed.

Example of Anesthesia Fees

1 Hour Procedure	\$475 (Non-refundable during phone interview)
2 Hour Procedure	\$735
3 Hour Procedure	\$995
4 Hour Procedure	\$1255
5 Hour Procedure	\$1515
6 Hour Procedure	\$1775

If you have any questions at all please do not hesitate to text or call me on my cell phone at 270-339-6627. I look forward to meeting you and providing you with an excellent sedation service while your dentist can focus on your procedure.
